

EnergyDecentral 2024 – innovation awards at the leading trade fair for decentralised energy supply

EnergyDecentral 2024: 12 to 15 November 2024 in Hanover, Germany - DLG to confer awards: "Innovation Award EnergyDecentral"- "DLG-Agrifuture Concept Winner" honours pioneering work and concepts for decentralised energy production

EnergyDecentral, the leading trade fair for decentralised energy supply, will take place from 12 to 15 November 2024 alongside EuroTier 2024 in Hanover, Germany. As part of the event, the DLG (German Agricultural Society), as the organiser, will confer two different awards covering market ready innovations and pioneering concepts. The "Innovation Award EnergyDecentral" is already the leading innovation award for decentralised energy production. With the "DLG-Agrifuture Concept Winner" award, the DLG recognizes pioneering work and concepts for decentralised energy production.

"Powering new ideas": true to this theme, the DLG at EnergyDecentral 2024 will once again be recognizing companies that develop pioneering innovations and visionary concepts. The DLG innovation awards underline the potential of innovative solutions in the field of decentralised energy.

Innovation Award EnergyDecentral

Established as the leading innovation award for decentralised energy generation, DLG's Innovation Award EnergyDecentral recognizes innovations for practical application. An independent jury, the DLG commission, will be evaluating all entries, resulting in an "Innovation Award EnergyDecentral" in either gold or silver for innovations meeting the stringent criteria. These include a new process or a known process that has been significantly improved

Exhibiting companies at EnergyDecentral 2024 can enter innovations in the award scheme.

Following evaluation and analysis of the entries, the international will select the innovations that will receive the "Innovation Award EnergyDecentral" in either gold or silver.

DLG Agrifuture Concept Winners

As part of EuroTier and EnergyDecentral, the DLG with its DLG Agrifuture Concept Winner Award is honoring pioneering work and concepts for sustainable animal husbandry and decentralised energy production. These are concepts and visions that have not yet reached market maturity, but are still in the development phase.

All award winners will be announced at the EuroTier international press conference on 24 September in Germany.

The closing date for entries for the EnergyDecentral 2024 awards is 31 July 2024. More information about the DLG awards at EnergyDecentral at: <https://www.energy-decentral.com/de/awards>

DLG. Progress and sustainability in the agriculture and food industry

The DLG (German Agricultural Society), founded in 1885 by Max Eyth, stands for productivity and sustainability in innovation-driven improvements in agriculture and the food chain. The aim of the DLG is to promote progress through the transfer of knowledge - especially with regard to technology and quality control. Non-profit, politically independent and with an international network, the DLG has more than 31,000 members worldwide.

As one of the leading organizations in its sector, the DLG not only organizes trade fairs and events in the fields of agriculture and food technology but also tests food, agricultural technology and equipment. With its competence centers for agriculture and food, its demonstration farm where practical trials take place along with its numerous publications, the DLG continually promotes independent knowledge transfer. In addition, the DLG works on

numerous national and international committees of experts to develop solutions for the challenges facing agriculture and the food industry
